

Support a Student Program

Did you or someone you know attend Catholic School? Do you know the strong values and moral framework that are instilled in students through their Catholic education? Would you like to pass that experience onto a local family who may need a little extra support to send their child/children to one of our local Catholic Schools?

The “Support a Student” program provides community members with the opportunity to give back to their neighbors and local Catholic Schools by making a tax-deductible donation, at whatever level you are comfortable with, to help a local child receive the faith-filled education that has benefited so many of us.

To participate, simply complete the information listed below and send it to Assumption Regional Catholic School with your check or money order made **payable to ARCS**. **Parishioners** may place and envelope in the weekly offertory baskets at Mass with “Support a Student Program” written on the outside of the envelope. Be sure to include your contact information to ensure accurate record keeping and updates of the impact of your generosity.

If you are a family who is/has been interested in Catholic Education for your child but finances are a concern, please know that our Catholic Schools assist MANY current families. As you can see from this program, our Catholic Schools and their Board Members are working hard to find ways to help families with tuition assistance through grants, scholarships and aid. **The first step** toward giving your child a Catholic School experience is to begin a conversation and gather information. Please contact the following:
